

CALL FOR PAPERS

Green your electronics: Less power, more value

SAME move to **eSAME (Embedded Software And Micro-Electronics)** to follow Sophia-Antipolis development toward the embedded software topics.

eSAME 2015 Conference will be a unique opportunity to learn more on future trends & new technical challenges within a high level technical environment!

Experts and Fellows from Sophia Antipolis major companies at the forefront of scientific and technical innovation are proud to propose a full day of leading-edge technical conferences.

TOPICS FOR TECHNICAL PAPERS

This year the eSAME 2015 Conference program is focused on Green Electronic. Papers can focus on but are not limited to:

- Energy Harvesting : Solar cell, Piezo energy, Thermoelectric generator
- Low power systems (RF device & platform)
- Embedded Audio and Video processing
- eHealth : From sensors to homecare services
- Smart grid, smart home power management
- Intelligent Transport Systems (ITS)
- User Centric Network
- Flexible and reconfigurable systems

SCHEDULE & DEADLINES

Deadline for abstract submission: June 14, 2015

Template is available at: www.esame-conference.org, send you abstract to: contact@pf-conception.org

Notification of acceptance: July 1, 2015

Deadline for full paper version: September 20, 2015

Deadline for final slides version: October 1, 2015

For additional information, please send an email at: contact@pf-conception.org

SAVE THE DATE

SAME 2015 Conference November 5, 2015
